

2009 Massachusetts Water Rate Survey

Headquarters: 53 Southamptn Road, Westfield, MA 01085 T 413-562-1600 F 413-562-5317

Other offices: Pocasset, MA; Worcester, MA; Danbury, CT; Middletown, CT; Shelton, CT

rates.tighebond.com

Tighe & Bond is pleased to publish our 2009 "Water Rate Survey" for communities in Massachusetts. The survey summarizes information from the following sources:

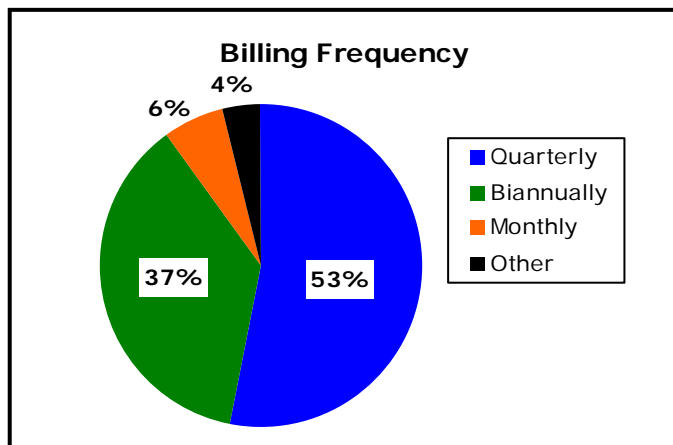

- written survey responses
- our extensive database of rate information for our existing clients
- the 2008 Annual Water & Sewer Retail Rate Survey published by The Massachusetts Water Resources Authority (MWRA) Advisory Board
- telephone surveys
- City and Town websites

Our written survey was mailed to all communities in Massachusetts. Approximately 79% of communities in Massachusetts have public water supply. About 61% of the communities use groundwater as their primary water source, with the remaining 39% relying on surface water sources.

A variety of different **rate structures** are used throughout the Commonwealth. Based on the written survey results, 39% of communities use a flat rate structure; 59% use an ascending rate structure and only 2% use a flat fee. To allow for a comparative analysis, we have calculated the "typical" yearly homeowner's cost assuming consumption of 120 hundred cubic feet (90,000 gallons) per year. Based on the information included in this survey, typical annual water costs in Massachusetts range from a low of \$113 per household to a high of over \$1,962! The 2009 average is \$426 per household, representing an increase of 16.8% over 2006 averages.

The majority of respondents to the written survey use either a quarterly billing cycle (53%) or a biannual billing cycle (37%). Six percent use a monthly billing cycle, and the remainder use either an annual, bimonthly, or tri-annual frequency. Of those communities responding to the written survey 18% stated that they have a separate rate structure for businesses and 19% provide elderly discounts. Five percent of communities report that they offer an early payment discount, 5% provide separate seasonal and 9% provide low-income rates.

Tighe & Bond would like to thank all public water suppliers for their participation in this survey. Comparisons of water rate structures and resulting typical homeowner's costs can be difficult given the wide variety of user charge methods in use. If we have incorrectly interpreted information for any community please let us know and we will make appropriate corrections. Questions, comments or suggestions are certainly welcome. Please contact Mary Beth Morris, P.E. at (413) 572-3247 for further information.

Tighe & Bond has been providing consulting engineering services to state and local government entities for decades. An adequate, good quality drinking water supply is essential for every community. Tighe & Bond provides a wide range of water resources services, from identifying needs and evaluating supplies to engineering new sources, treatment facilities and storage and distribution systems. Tighe & Bond also provides expertise in wastewater and residuals management, civil engineering and solid and hazardous waste management.

Footnotes:

1. The MWRA Advisory Board's Annual Water Sewer Retail Rate Survey - December 2008 was used as a reference.
2. Typical Annual Homeowner's Cost was determined assuming consumption of 120 HCF = 90,000 gals.
3. HCF = hundred cubic feet.
4. NA = Not Available
5. NR = No Response
6. Primary Water Source Type:
 - GW = Groundwater
 - SW = Surface Water
 - GW/SW = Groundwater/Surface Water
 - PSW = Purchased Surface Water
 - PGW = Purchased Groundwater
